

Arctic Audubon's Winter Speaker Series Presents

AUDUBON RIEDEL NATURE RESERVE
A TOUR OF THE LAND, THE HISTORY, THE FUTURE
CARLSON CENTER PIONEER ROOM MONDAY MARCH 4TH AT 7:00PM
Free! All Are Welcome

The Audubon Riedel Nature Reserve began 40 years ago due to Elonore Riedel's desire to ensure that her 160-acre homesteaded would remain intact and undeveloped. In December 1984, Elonore and husband Charles deeded the 160-acre homestead to Arctic Audubon Society. Since then, the Reserve has expanded to 320 acres through a purchase of 40 acres by Arctic Audubon as well as gifts of 40 acres from the Mayo family and 80 acres from the Herning family. Join us for a virtual tour of this beautiful Reserve near 5-Mile Chena Hot Springs Road. Together we will explore the land, wildlife, trails, history, and future of the Audubon Riedel Nature Reserve. The Reserve has a rich history with many twists and turns along the way. We invite the community to enjoy this land and help us shape its future.

Photo: Bernard Marschner

Our presenters are **Gail Mayo, Darla Theisen, and Mary Zalar**. Gail and Mary have been involved with the Nature Reserve since the beginning in 1984. Darla joined Arctic Audubon's Board in 2017 and co-chairs the Nature Reserve Committee with Gail. Darla and her husband chose their home because of its proximity to the Reserve.
